

Prime Horizontal is a leading service and guidance company in the utility pipeline sector.

We operate on a global basis offering a wide range of guidance engineer services, specialising in Horizontal Directional Drilling in Non-Oilfield applications.

We have established a culture of innovation where our employees really make a difference.

To expand our team of Guidance Engineers in Australia we are looking for

Field Service Engineers

(Motivated, Flexible and able to start a.s.a.p. for our Australian operation ideally based in Brisbane, QLD)

Experiences (on site pipeline related experience is preferable):

- AUTOCAD
- Land surveying
- Steering tool software (ParaTrack/Tensor/Gyro)
- Foreign language (preferable) but not essential.

The successful applicants will have a University degree in relevant discipline or equivalent experience in the field. Strong mathematics backgrounds integrated with excellent computer and communication skills, and demonstrating a high level of professional Integrity.

Prime Horizontal Offers; Excellent training and development, Negotiable salary, and Worldwide travel
