

Le Porge Ocean

### Gyro Module and ParaTrack 2

**Le Porge Ocean: Bordeaux, France**

**Distance: 1100m (3630')**

**160m (528') entry coil**

**Tracking used: Gyro Module & ParaTrack 2**

It was a 1100m (3630') straight crossing drilling out to sea. A 160m (528') entry coil was used and the 940m (3102') guided using the **Gyro Module**. In order to keep the annular pressure low the 8" Jetting assembly, 9 7/8" bit with 6 3/4" drill pipe combination were utilized for this project. The client was very pleased with the time to take surveys and the accuracy of the project.
